Assignments

Question-1

Given two strings A and B, the task is to print all the non-repeating words out of the two given sentences.

input: A = "I have a blue pen", B = "I got a red pen"

Output: have blue got red

Explanation:

The words have, blue, got and red have not been repeated in either the same sentence or another sentence.

Question-2

Write a program to print duplicate characters from a string?
